

CargoQuilt®

By creating a thermal barrier over your products, CargoQuilt® protects from both heat or cold, as well as other environmental hazards. Developed as an alternative to transporting temperature-sensitive cargo under refrigeration, CargoQuilt captures the existing environment of the freight and maintains that temperature range throughout the delivery process.

Once the cargo is loaded on a trailer or container, CargoQuilt is easily applied over the loaded cargo. The CargoQuilt can maintain the temperature of the freight - whether hot or cold - from 5 up to 30 days.

- Protects from both heat and cold
- Multi- or limited use
- Accommodates all styles of containers and trailers
- Applied and removed in minutes

Applications

Intermodal / Ocean

Full Truckload

Rail

Markets

Food & Beverage

Pharmaceutical

Paint & Chemicals

Help your products hold their integrity.

CargoQuilt®

Product Options

Multi-Trip

Re-Usable Durability / Recyclable
For domestic shipments and "return logistics."

Limited Use

Eco-Friendly Construction / Easy Removal
For international shipments and disposable convenience.

Custom logos also available.

Protection From

Heat
Shields from solar radiation and protects against temperature spikes.

Freezing
Multi-layer protection keeps goods above freezing, even for extended periods.

Condensation
Breathable, to reduce the probability of condensation and damaged packaging.

Specifications

Lengths	24', 28', 36', 48'
Widths	98", 105", 106", 108"
Weight	55 lbs. (Approximate)
Package Size	48"x24"x20"
Skid	Standard

The CargoQuilt® Difference

Actual data of temperature fluctuations on goods protected by CargoQuilt®, in real world conditions*.
