

QFoil® Small Packaging

QFoil® Small Packaging solutions are an economical and effective way to protect parcel-sized shipments sensitive to hot or cold temperatures. Standard pouches and box liners are constructed with foil and bubble insulation, while the QPouches and QBox Liners are made with a thicker foil and foam combination for more extreme transit conditions.

Available sizes include many standard dimensions, and many small packaging solutions come pre-taped for an easy seal.

- Lightweight and compact
- Economical
- Selected Applications
- Easy Application

Applications

Parcel

Markets

Food & Beverage

Pharmaceutical

Paint & Chemicals

Cosmetic

Help your products hold their integrity.
